

Forever<3

Aryia

Heroin promises, as empty as your eyes
Stop this self hatred, don't you ever leave my side
And trust me I, I get it
I just wish you were still here

Because I don't want to let you down
I want to make you proud
Proud of who I am
And when I've taken my last breath
And I'll be with you again
Until forever ends

I still save your seat every week but you don't show
You always believed in me now it's just me and your ghost
If my blood could bring you back, I'd bleed til my heart turned
black
I just wish you were still here

Because I don't want to let you down
I want to make you proud
Proud of who I am
And when I've taken my last breath
And I'll be with you again
Until forever ends

The broken, the useless, if something above could fix this
I'd listen, I'm praying, these words can heal your pain
The broken, the useless, if something above could fix this
I'd listen, I'm praying, these words can heal your pain

The broken, the useless, if something above could fix this
I'd listen, I'm praying, these words can heal your pain

The broken, the useless, if something above could fix this
I'd listen, I'm praying, these words can heal your pain
