

Suttin bout you just turns man on
I'm smooth like 007, but they can't break our bond
Your icon the only one I want
They can't break our bond
Do you know they can't break our bond?

I'm smooth like James
My new ting more than flames
Girl you know your popping
Expect the hate
She took it upon her self I changed
Who said that we should stay say the same

Let's do suttin out of the box
Uno, liven up my day
You're the chocolate icing on my cake
Turn around oh my dase
I ain't got no type on paper
Just make that you ride all the way
Suttin bout you makes man work harder
Cant jeopardize what we gained

I'm smooth like
I'm smooth like A
Coco butter smooth
She come out shower freshly shaved
Juice freshly squeezed don't go back to your toxic ways
Put that stress and mobile down
We outside for the whole dam day

And suttin bout you just turns man on
I'm smooth like 007, but they can't break our bond
Your icon the only one I want
They can't break our bond
Do you know they can't break our bond?

I'm smooth like James
My new ting more than flames
Girl you know your popping
Expect the hate
She took it upon her self to say I changed
Who said that we should stay the same

I'm not half don't be alarmed
Something about you makes me feel calm
The past ain't nuttin but past
Essence 007
Had a feeling she was heaven sent I can't leave that my bredrin
I wanna learn from you not learn from you
I hope you get it

You see how that girl just walked in
Everyone clear the entrance
Convos reflective
Don't be too obsessive you wanna go to the states
And live shit let's patterned our Esther's
I'm so invested

You're so interested

And suttin bout you just turns man on
I'm smooth like 007 but they can't break our bond
Your icon the only one I want
They can't break our bond
Do you know they can't break our bond?
