

# All About Luv

ARZ

I'm fenced off  
I'm fenced off, fenced off  
(Hm-mm)  
I'm fenced off (hm, hmm)  
I'm fenced off  
(Hm, hmm) I'm fenced off, fenced off

Yeah, yeah (fenced off), yeah, nah, shit  
Every now and again, can't help see the pain on your face (fenced off)  
Play it safe like the sunset  
You don't ever know when it fades away (away) (fenced off)  
Got my Welly boots 'cause your love don't ever stop rain (rain), uh

Girl, girl get in, lemme take you  
You ain't gotta get a train from the Station  
I think I got a heart that she don't mind breaking  
Think I got spliff that she don't mind taking

She got tunes by me on her playlist  
I don't know if it loves, or it's hatred, look contagious  
You wanna see me every hour on the clock, shawty couldn't contain it  
Put her in the cockpit smoke in the spaceship  
Still celebrate, still, when it's raining

I like you, I'm tryna figure what you need  
All about love, wanna figure what it means (yeah)  
Bare pain, I don't know about peace  
Bare strays and bare ways that you showed  
But you couldn't complete it

More weed, you sow what you reap  
I'm stoned, Arz gon' put another beat all alone  
'Cause they always something from me, let's go (let's go)

Shit, I'm born in the east side like how I get fly (get fly), yeah  
Every moment and a vibe, you just wanna spend more time with me  
I don't like partying girl, I just party to dress nice  
Don't care how far I go  
I do the trek twice, more sun, more rain, more life

Through the love and the costs you ain't ever got lost, that's what's up (th  
at's what's up)  
She know niggas out here washed, unlike me, I get a monster, shit  
At the window waiting for the sun or rain, either way we gon' watch Sutton  
Every now and again, no change, unlike me, that's what's up (what's up)

I'm born in the east side like how I get fly (get fly)  
Every moment, a vibe you just wanna spend more time with me  
I don't like partying girl, I just party to dress nice  
Don't care how far I go  
I do the trek twice, more sun, more rain, more life

More vibes, more wine, more drives you ain't ever been (yeah)  
Give you everything, if you stay genuinely (yeah)  
I got medicine on me, I'm good  
She don't smoke, but she still likes smelling it, huh (huh)
