Baby slow it for me

Your time I know what I need
Your eyes and all that I see
Come fly wimme take flights wimme
Lemme elevate your mind with me
No hide and seek I hide and keep
She know I'm the-

Boss like Wenger I manage it, for her it's probably baffling
Any problems you got I got together we go there and tackle it
And I got a lot on my shoulders, I just hope that you can fathom it

Slow it for me

Your time I know what I need
Your eyes and all that I see
