Fuck it I'm a introvert  
My raps I'm firing  
Trips to the island pure weed and vitamins  
My life's conflicted But I try make time for it  
Believe me  
Playing est gee in a Audi TT  
She say I like how you rap uno I got you on repeat  
Make sure they stay out our business we gotta keep peace

Keep our business private  
She don't want dem niggas knowing shit  
Took her round the studio today and she look dope in it  
We ain't never falling about problems cuz we solving them  
Deep inside we making so much love that pussy opening  
Number 1 I'm choosing u ain't want nobody else  
I was down u still come hold couldn't even hold myself  
And I ain't even ask her yet but she act like my girl  
And I'ma keep on playing my cards right only time will tell

I'm wearing Prada shades, hiding what I feel  
If I'm being real I don't wanna sign a deal  
We gone bun a spliff outside the place we got time to kill  
You look unreal on your IG Real  
We Don't divide the bill  
I gotta devise a plan  
You can be the passy princes when I'm off the ban  
No guidance you need guiding I'm the man  
3.5 in the runtz pack  
We touchdown and unpack

Yeah swaggy lil mama from the city  
Work a 9-5  
And most the fucking time she always busy  
Pull up on me I got all my niggas with me bring a friend  
Spent some time apart but we both knew it weren't the end of things  
Need a girl that's right for me these hoes just wanna benefit  
Met a superstar but we agreed she wasn't ready yet  
I got dreams to chase and I'm still calling her my everything  
And she know that I'm down for her I got her that's on anything
