

Mrs I'll do everything
In other words you're my everything
We take turns drinking Hennessy
You know me and we can talk bout anything
How you finding it? Are you settled in?
I can't lose my everything
I told her those girls less relevant
Than you, that's on everything

Mrs I'll do everything
In other words you're my everything
We take turns drinking Hennessy
You know me and we can talk bout anything
How you finding it? Are you settled in?
I can't lose my everything
I told her those girls less relevant
Than you, that's on everything

I can't lose what I have for nothing
Girls wanna lust me, I can't trust them
They don't love me so I don't fuck them
Bad intentions man I can't do it
I can't love someone who ain't been through it
Relations are ruined
Me and her locked in like glue and
I pree your page and see how you do
And what's new
She send me pictures nude
Deleted pictures of me and you
Keep it cute, don't tell me it's true
If going thru things keep me in the loop
When you came so did pain
You know everything comes in twos
Your friends think you should be done with me
But not one time I felt done with you

I'll do everything
In other words you're my everything
We take turns drinking Hennessy
You know me and we can talk bout anything
How you finding it? Are you settled in?
I can't lose my everything
I told her those girls less relevant
Than you, that's on everything

Mrs I'll do
In other words you're my
Take turns drinking
You know me and we can talk bout
How you finding it? Are you
I can't lose my everything
I told her those girls less relevant
Than you, that's on everything

I cut out that chick felt better since
Had too many females stretching it
Now I'm rude but I was gentlemen

In this cold cold world it's treacherous
Are you the poison or medicine
She on her journey celibate
Can't trade nothing for everything
Man got more than motion
I know man more than jokers
She don't no wanna nigga that ain't got his head on his shoulders
I'm a soldier
She knows this
She's nurtured
She's cultured
We got all that we need were posted
Mrs I'll do whatever the most is

Mrs I'll do everything
In other words you're my everything
We take turns drinking
You know me and we can talk
How you finding it? Are you settled in?
I can't lose
I told her those girls less relevant
Than you

And I'll do
In other words you're my everything
We take turns drinking
You know me and we can talk bout anything
How you finding it? Are you
I told her less relevant
Than you, that's on
