World War Arz

ARZ

She got a soft heart like me but I don't wanna be the one to tear her
s down
And if the wars outside and your out there I'll be the first one runn
ing out
If you need protection I'll sort it out
Cover me that's what it's all about
If we in the battle field holding mad pressure are you gonna jet or a
re you gonna hold me down

I feel Stanley in holes
Industry weird but I'm low-key involved
I'm feeling Brent Fuck the world
I got weed on the scales playing Suttin that I wrote
And everyone's weird for real that I ain't something that I feel that
's just something that I know
They tell me stay active but I don't wanna post
Blowing smoke in the pent house with all of my woes

I'm running out guns blazing
I wanna tell my mumma that I made it
I just want acers
She keep everything sorted so I ain't gotta say shit nothing bout her
 basic
Had to double down so I'm setting up arrangements
The war outside so dangerous
Can you maintain are will you fade when the fame hits
Don't make a promise she said niggas break them

She got a soft heart like me but I don't wanna be the one to tear her
s down
And if the wars outside and your out there I'll be the first one runn
ing out
If you need protection I'll sort it out
Cover me that's what it's all about
If we in the battle field holding mad pressure are you gonna jet or a
re you gonna hold me down

All I wanna know will you be there when it's done
Drinks on drinks at the bottomless brunch
I'm tryna climb down I don't wanna get stuck
I'm sitting in probation I'ma call you on my lunch
Fucking up drugs to feel more in touch
She the baddest in the ends but I don't even wanna fuck
She was round me when I was coming up
We up and we stuck
It's me and you in the truck

I shut shit down like Stalin
Tapping down my starling regardless
I can't keep her around me if she jarring
I guess I gotta act like a artist
I'm a boss she thinks I'm a narcissistic

I'm blocking every bullet or cartridge
I've never been a sheep just a sergeant
Shots to the body I left that bitch heartless

I'm blocking every bullet or cartridge
I've never been a sheep just a sergeant
Shots to the body I left that bitch heartless
