

# Chains

## As Cities Burn

(He's got a gun)  
Like a city that has no walls  
Like a city that has no walls  
Like a city that has no walls  
Here's a man with no self control

(He's got a gun)  
He's got his hands on the gun that's all (He's got a gun) (He's got a gun)  
Bullet big enough to bury the world  
Thank god I'm not afraid  
I'm not afraid to die

Really really though  
I really am afraid to die  
Gave me a good scare  
It was enough to keep me inside  
Going live to the scene  
What a shame it wasn't me  
What a shame I only see  
Blind leading the blind leading the blind

It's seeing with your eyes  
It's seeing with your eyes that makes you stumble  
I feel for you  
I feel  
It's seeing with your eyes that makes you stumble

I'm in this too  
I'm in this  
I'm in this too  
I'm in this

It doesn't matter  
It doesn't matter what chains you choose  
It doesn't matter  
Just so long as it's chains you choose  
Cleverly left up to you  
Do you believe in freedom too?  
The american dream is a green grave plot  
The only thing left to do

I feel for you  
I feel  
It's seeing with your eyes that makes you stumble

I'm in this too  
I'm in this  
I'm in this too  
I'm in this  
Too

All my friends have confidence  
It's common sense to rely on sight  
It's not right, it's not right  
When climbing this is foot to head  
Instead let's lay the ladder down  
Settle the matter now

Let's settle the matter

Love

Love is the end

Love

Love is the means

Love

Love is the end

Love

Love is the means

Now there's a level plane

Now there's a level plane

Now there's a level plane

Why you thinking only gain?

Are you thinking only gain?

Why you thinking only gain?
