

Errand Rum

As Cities Burn

No, I won't play that song to hear you singing it back
It is all wrong
If I ever told the truth he was never dead, at least not to you
But you still sing, you still do

We are so young, we are so young now
Hold your head up for the world to spin around

Old friend, we used to talk
What we used to say I can't recall
Was I really listening? Was I just waiting for my turn to talk?
I got everything to say too

We are so young, we are so young now
Hold your head up, baby soon I'll be around

Round and round we go, we go
Round and round we go, we go
And round and round we go, we go
(I know you hate the sound but baby I can't stop)
Round and round we go, we go

We are so young, we are so young now
Hold your head up for the world to spin around
We are so young, we are so young now
Hold your hands out for what we can't pull down
