

Angry Cry

As December Falls

Lately I've been losing control
And I've been making that your problem
And I get so emotional
But I was hoping that you'd solve them
And I don't know the protocol
I care too much about the way you see me
You make living look easy

How can you look at me when I'm such a state?
Angry cry, angry cry
I wish that I could feel my feelings other ways
Don't ask why, angry cry

I can't find the words 'cause the TV's too loud
But I can't fall asleep without the background sounds
So I stay overwhelmed, make myself stressed out
Till I angry cry, angry cry

It feels like I've just blacked out
These waves are so overwhelming
They push and they hold me down
Till I can't see the ones I'm hurting
I react like a loaded gun
Pull the trigger, watch it all consume me
How do you make it look easy?

How can you look at me when I'm such a state?
Angry cry, angry cry
I wish that I could feel my feelings other ways
Don't ask why, angry cry

I can't find the words 'cause the TV's too loud
But I can't fall asleep without the background sounds
So I stay overwhelmed make myself stressed out
Till I angry cry, angry cry

Watch me lose my mind
As each day goes by
No matter what I try
I just don't feel right
You watch me lose my mind
As each day goes by
No matter what I try
I feel like I might die

I can't find the words 'cause the TV's too loud
But I can't fall asleep without the background sounds
So I stay overwhelmed make myself stressed out
Till I angry cry, angry cry
Angry cry, angry cry
Don't ask why, angry cry
