## As December Falls

And I've been holding on  
For too long now  
I can't get it out of my head  
I can't get out of those arms  
And they say  
"It's not hard," and I say, "Well, it's not easy  
When you're all alone."

Take my hand and I'll make it better  
Well darling I've had that before  
And it's getting too comfortable for me

We used to play all night  
And the stars didn't know what hit 'em  
We'd sing all our songs way past  
The point of being tired  
And if your heart's still beating, scream  
And if your heart's still beating, scream  
And if your heart's still beating, scream

I know I'm making it hard and letting it change me  
You thought I'd be sad, you thought I'd be angry  
(We'll never agree)  
If only you'd see we could make this better  
(I don't understand)  
That's all I'm hearing  
(Why can't you just pull yourself together  
And get your shit together now)

Take my hand and I'll make it better  
Well darling I've had that before  
And it's getting too comfortable for me

We used to play all night  
And the stars didn't know what hit 'em  
We'd sing all our songs way past  
The point of being tired  
And if your heart's still beating, scream  
And if your heart's still beating, scream  
And if your heart's still beating, scream

Take my hand and I'll make it better, whoa  
Take my hand and I'll make it better, whoa  
Take my hand and I'll make it better, whoa  
Take my hand and I'll make it better, whoa

We used to play all night  
And the stars didn't know what hit 'em  
We'd sing all our songs way past  
The point of being tired  
And if your heart's still beating, scream  
And if your heart's still beating, scream  
And if your heart's still beating, scream
