

And these things they were really going quite well  
Until you said "pretty baby oh we need help"  
Then we sat down and you said to me  
"I'd rather be missing you  
You're not my dream come true"  
Then get up, get up and leave

Oh, you wanted more  
I guess you didn't see  
You thought I needed you  
I guess you needed me

Round and round like a carousel honey  
Up and down, it's almost funny  
It's so bad, it's good  
Round and round and round and round we go

And these things they were really going quite well  
But honestly oh you're giving me hell  
Give me, give me a break  
We need one another  
You're my chemical lover  
So why do I love to hate to love to hate you

Oh, you wanted more  
I guess you didn't see  
You thought I needed you  
I guess you needed me

Round and round like a carousel honey  
Up and down, it's almost funny  
It's so bad, it's good  
Round and round and round and round we go

We're back at it again  
You're inside my head (Round and round)  
It's so bad it's good (Round and round)  
Maybe we're just misunderstood (Round and round)  
We're back at it again (Round and round)  
You're inside my head

Round and round like a carousel honey  
Up and down, it's almost funny  
It's so bad, it's good  
Round and round and round  
Round and round like a carousel honey  
Up and down, it's almost funny  
It's so bad, it's good  
Round and round and round and round we go
