

Leave

As December Falls

Don't just get up and leave
Don't give up on me
We'll do this, you'll see
If you keep faith in me

I'm so done with the sad boy attitude
You think I don't understand your point of view
I get it, your life's hard, I know my life's hard
We're all broken, we're all scarred

The sound of us moving
You act like we're losing
And I
Just want you to believe

Don't just get up and leave
Don't give up on me
We'll do this, you'll see
If you keep faith in me
Don't just get up and leave
Please don't give up on me
We'll do this, you'll see
If you keep faith in me

I'm so sick of being in the mood
It always happens when I'm around you
You bring me down like a rain cloud
And I hate that you can't hear

The sound of us moving
You act like we're losing
And I
Just want you to believe

Don't just get up and leave
Don't give up on me
We'll do this, you'll see
If you keep faith in me
Don't just get up and leave
Please don't give up on me
We'll do this, you'll see
If you keep faith in me

The sound of us moving
You act like we're losing
And I
Just want you to believe
The sound of us moving
You act like we're losing
And I
Just want you to believe

Don't just get up and leave
Don't give up on me
We'll do this, you'll see
If you keep faith in me
Don't just get up and leave

Please don't give up on me
We'll do this, you'll see
If you keep faith in me

The sound of us moving
You act like we're losing
And I
Just want you to believe
The sound of us moving
You act like we're losing
And I
Just want you to believe

Don't just get up and leave
Don't give up on me
We'll do this, you'll see
If you keep faith in me
