

Flip Side

As Everything Unfolds

Flip side

Now we're living life on the other side
Hoping for a smooth ride
Out of all of this give me all the bliss
Of knowing everything's out of reach for you
Can I take you down without knowing how
You spent your life invested
Can I take you down without knowing how
You got yourself rejected

As I spin in circles all I see are lights
While my mind is working overtime
Living life on the flip side
Flip side
Flip side

I revel in every moment
I smile in my relief
Can't believe I let myself grieve
I revel in every moment
I smile in my relief
That this life isn't quite what you wanted to see
(On the flip side)

As I spin in circles all I see are lights
While my mind is working overtime
Living life on the flip side
Living life on the flip side
Flip side

Flip side
Where everything you'd ever
Dreamed is mine

I revel in every moment
On the flip side
I smile in my relief
On the flip side
That this life isn't quite what you wanted to see
On the flip side
Flip side
