

## Resting With Closed Eyes

As Hell Retreats

We rest with closed eyes  
Never knowing when someone will leave us behind  
Instead we shut it down, we shut it off.  
We all become lost of what should always be found

Ignorance blinds us.  
Ignorance blinds us all from beauty  
Beauty of having a thought for ourselves.

Instead we discriminate the ones we love  
And push them aside  
The next thing, they leave the world  
Our world, our arms, our grasp  
And we can't apologize anymore

Jesus, you only ask us to do one thing  
That is to love all and serve all.  
But we become weak instead with demons  
We become impure

We can fight this off, we can overcome.  
With you Lord, our Almighty.  
Amen.
