

# Balloons (2017)

As It Is

It's late at night  
I'm wide awake  
I sit and watch the nurses pace  
The stale taste of recycled air  
Lingers in the room we share  
My time is running out  
But I think I'm ready now  
I count the hours down, down, down

I'm letting go, we're used to being so afraid of letting go  
'Cause I know I don't fear a thing  
So let me float like balloons in the sky  
So let me float like balloons

I'm letting go, we're used to being so afraid of letting go  
'Cause I know I don't fear a thing  
So let me float like balloons in the sky  
So let me float like balloons

I've come to know this borrowed bed  
About as well as my best friend  
The clockwork sound of these machines  
Sing like birds that never sleep

I have my memories  
More than I'll ever need  
I count the hours down, down, down

I'm letting go, we're used to being so afraid of letting go  
'Cause I know I don't fear a thing  
So let me float like balloons in the sky  
So let me float like balloons

I'm letting go, we're used to being so afraid of letting go  
'Cause I know I don't fear a thing  
So let me float like balloons in the sky  
So let me float like balloons

Say goodbye  
(Say goodbye)  
One last time  
(One last time)  
This world is beautiful and kind  
But no longer is it mine

It's late at night  
I'm wide awake  
I sit and watch the nurses pace

I'm letting go, we're used to being so afraid of letting go  
'Cause I know I don't fear a thing  
So let me float like balloons in the sky  
So let me float like balloons

I'm letting go, we're used to being so afraid of letting go  
'Cause I know I don't fear a thing  
So let me float like balloons in the sky

So let me float like balloons
