

## Sinking Down (2017)

As It Is

I don't believe in fate  
But when you can't be saved  
There isn't much that's gonna make that change  
I know it well  
That all that waits for me is hell  
So sing to me 'cause I can't stand the silence  
Always frightens  
Always closing in on me

Stay with me  
Watch me drown  
Hold my hand, I'm sinking down  
Don't run away  
Don't bite your tongue  
Just hold my hand, I'm sinking down

I know that songs are not a cure  
For all the pain that I've endured  
It won't erase the scars, the broken hearts  
The unrelenting hurt

But no one else will sympathize or try to understand  
I never chose to fuck this up  
I'm doing all I can  
But anything is better than just being on my own  
This coffin is less empty when you make it feel like home

Stay with me  
Watch me drown  
Hold my hand, I'm sinking down  
Don't run away  
Don't bite your tongue  
Just hold my hand, I'm sinking down  
I'm sinking down  
I'm sinking down

Stay with me  
Watch me drown  
Hold my hand, I'm sinking down  
Don't run away  
Don't bite your tongue  
Just hold my hand, I'm sinking down
