

## Backdown

### As The Structure Fails

Never coming, never coming  
Back down  
Never coming, never coming  
Back down

There's nothing in the way tonight  
On a climb  
The presence of life  
This feeling so bright  
Hold on as long as you can  
We can never be stopped  
No  
We cannot be stopped

Forget it all cause tonight we rise  
When you gunna get  
When you gunna get  
The chance to get what's off your mind  
Forget it all cause right here we rise  
When you gunna get  
When you gunna get  
The chance to live beyond the lines

Higher and higher we elevate  
We elevate  
I wanna stay right here forever  
In this moment

Never coming down  
Never coming, never coming  
Back down  
Negativity always tries to break free

Yeah that's right  
Trampled into the ground  
Cause we're tearing up the night  
It doesn't matter anymore  
We're breaking through the fucking floor

We've never felt more alive  
On a climb  
To freedom in life  
This feeling so bright  
Hold on as long as you can  
We can never be stopped  
No we cannot be stopped

Forget it all cause tonight we rise  
When you gunna get  
When you gunna get  
The chance to get what's off your mind  
Forget it all cause right here we rise  
When you gunna get  
When you gunna get  
The chance to live beyond the lines

Higher and higher we elevate

We elevate  
I wanna stay right here forever  
We're never coming down  
Never coming down  
Never coming, never coming
