

## Divine Unity

## As The Structure Fails

All I hear is white noise  
And see blank faces  
I am a malevolent being assaulting your unconsciousness  
A monument of terror  
A violent chill runs up my spine  
I can touch you  
I can feel you  
Love  
Come closer come closer can you feel my breath  
On your neck

I am your psychotic oppressor  
You feel in your heart  
I am your inner demon  
Lusting for your shattered soul  
You are clearly mine for the taking  
You're just a burden to them  
I brace your skin with self-hate and damnation  
Pure eternal

Descend to a lower existence  
Your eyes roll back  
Giving in to temptation  
Don't cry  
It only hurts before you die

Hell is where you belong  
Sacrifice everything you love  
Hell is where you belong  
Sacrifice everything you love

I am eternal and faithful  
I am eternal and faithful

Unhand your body it belongs to me  
Just give me your soul  
And end your suffering  
You'll be high as God  
You're not a victim  
Untold at the gates of heaven

All I hear is white noise  
And see blank faces  
I am the malevolent being assaulting your unconsciousness  
A monument of terror  
A violent chill runs up my spine  
I can touch you  
I can feel you  
LOVE  
Come closer come closer can you feel my breath  
On your neck

I am your psychotic oppressor  
You feel in your heart  
I am your inner demon  
Lusting for your shattered soul  
You are clearly mine for the taking

You're just a burden to them  
I brace your skin with self-hate and damnation  
Pure eternal

Descend to a lower existence
