## As The Structure Fails

Controlled to live in fear  
They must tell these stories of violence  
This type of life can't be welcome here  
Why aren't you mortified  
Why aren't you on our side  
Is history repeating itself?  
In this evolution of evil  
It continues to grow  
Evolution of evil

Freedom has no chains!  
The silencing and censoring of media  
Has warped our minds  
An illusion made to cover bullshit lies  
Options are running thin  
Where do we start to begin

You'll never take my hope away  
You'll never take all my faith  
We need to sacrifice  
We need to change our lives  
In order to free our minds

Controlled to live in fear  
This shouldn't be real  
A false sense of hope  
With an end that's feeling near  
Feeling near!

It continues to grow  
Evolution of evil

Freedom has no chains  
Load up your guns  
We are under control  
This is a war  
We'll fall if we don't fight  
Load up your guns  
We are under control  
This is a war  
We're fucked if we don't fight!
