

Forgotten

As The Structure Fails

All my life I've given nothing short
Circling in my head is every thought to let this go
Restless awake time won't heal me now
I just can't hold it inside

Hold it inside
Cause I cannot change your mind
Our time has come and gone
I will not be forgotten
They say what's done is done
I just refuse you won
I will not be forgotten

You will never admit
Deception is all that you spit
Your lies, growing inside
Those eyes are better off blind

I find my breath in this fire
You picked the fight but now you fold
Too naive to recognize that I'm the one you've been looking for

All my life I've given nothing short
Circling in my head is every thought to let this go
Restless awake time won't heal us now
I just can't hold it inside

Hold it inside
Cause I cannot change your mind
Our time has come and gone
I will not be forgotten
They say what's done is done
I just refuse you won
I will not be forgotten

I will not be forgotten
