

# The Surface

## As The Structure Fails

I'm lost faking my disguise  
My thoughts eat me up inside  
And it hurts to say  
That I know I'm fading away

I thought I'd reached my all time low  
Yet further further down I go

They say love is the healer  
Love is the healer  
But no one can seem to save me from myself

Stand here for the last time  
Constantly crushing me  
Forget the emotion  
Can't seem to let go  
You know I've tried to find you  
I can't escape I can not reach the surface I've been looking for

Save me  
I don't know what to do  
Save me  
I don't know what to do

They say love is the healer  
Love is the healer  
But no one can seem to save me from myself

Stand here for the last time  
Constantly crushing me  
Forget the emotion  
Can't seem to let go  
You know I've tried to find you  
I can't escape I can not reach the surface I've been looking for

I thought I'd reached my all time low  
Yet further further down I go  
I thought I'd reached my all time low  
Yet further further down I go
