

9 Lives

Asa

How many days can I wait
How many more can I take
In this hell on earth
From those who I serve
Mama says It won't be long
You just have to be strong
No one understands
No one really cares

I'm screaming
Hoping you'll hear me now now now now
I'm sinking someone come pull me out out out

I'm the one with nine lives
You only killed me three times
No surrender no backing down
No no more tears stuck in my eyes

Watch me go all over the world
I'm the star burning bright
Watch me go all over the world
The one you see up in the sky

Can you see me now
Hey hey
You can never catch me now
Hey hey
Can you hear me now
Hey hey
You can never reach me now
Hey hey

To the boy on the street
Waging war from within
To the girl who refuses
To be someone who he abuses

I'm screaming hoping you'll hear me now now now now
I'm sinking, someone come pull me out out out

I'm the one with nine lives
You only killed me three times
No surrender no backing down
No no more tear stuck in my eyes

Watch me go all over the world
I'm the star burning bright
Watch me go all over the world
The one you see up in the sky

Can you see me now
Hey hey
You can never catch me now
Hey hey
Can you hear me now
Hey hey
You can never reach me now

Hey hey
