

## 9 Lives

Asa

How many days can I wait  
How many more can I take  
In this hell on earth  
From those who I serve  
Mama says It won't be long  
You just have to be strong  
No one understands  
No one really cares

I'm screaming  
Hoping you'll hear me now now now now  
I'm sinking someone come pull me out out out

I'm the one with nine lives  
You only killed me three times  
No surrender no backing down  
No no more tears stuck in my eyes

Watch me go all over the world  
I'm the star burning bright  
Watch me go all over the world  
The one you see up in the sky

Can you see me now  
Hey hey  
You can never catch me now  
Hey hey  
Can you hear me now  
Hey hey  
You can never reach me now  
Hey hey

To the boy on the street  
Waging war from within  
To the girl who refuses  
To be someone who he abuses

I'm screaming hoping you'll hear me now now now now  
I'm sinking, someone come pull me out out out

I'm the one with nine lives  
You only killed me three times  
No surrender no backing down  
No no more tear stuck in my eyes

Watch me go all over the world  
I'm the star burning bright  
Watch me go all over the world  
The one you see up in the sky

Can you see me now  
Hey hey  
You can never catch me now  
Hey hey  
Can you hear me now  
Hey hey  
You can never reach me now

Hey hey
