

Situation

Asa

There's a situation
Everybody is speculating
They say "What have we done
To deserve this constant changing"

Father, Father, Hear us
Those we trust have failed us
They say "look to the lord
For salvation and he shall redeem you"

Lord I'm getting frustrated
As I'm losing my patience
I've been waiting for so long
How long will this go on for
Got my back against the wall
I've been waiting for so long

Cause this is
This is who we are
It's our reality
It's our reality, now

Cause this is
This is who we are
It's our reality
It's our reality, now

There's a situation
Everybody is close to breaking
They say "What have we done
To deserve this trouble making"

Father, Father, Hear us
Those we trust have failed us
They say "look to the lord
For salvation and he shall redeem you"

Aww, I'm getting frustrated
YES, I'm losing my patience
I've been waiting for so long
How long will this go on for
Got my back against the wall
Just can't take it anymore

Cause this is
This is who we are
It's our reality
It's our reality, now
Cause this is
This is who we are
It's our reality
It's our reality, now
Cause this is
This is who we are
It's our reality
It's our reality, now
