

Society

Asa

You fill your mouth with words and words
You twist them well oh yes I heard
Suits and ties don't cover your lies
I see you come you dey try / you try

No mean say we get the same society
Oh oh
No mean say we get the same philosophy
Oh oh

Get out my face
You step on my shoes
Winner today tomorrow you lose
Stop all your talk and let me go through
Commot for my face make I see road pass

Water you drink, air that we breath
Sky above, ocean beneath
The oil you steal, the fire you burn
The lives you take will never return

No mean say we get the same society
Oh oh
No mean say we get the same philosophy
Oh oh

Get out my face
You step on my shoes
Winner today tomorrow you lose
Stop all your talk and let me go through
Commot for my face make I see road pass

All is not well in the world
One man's truth, another man's lie
The more you see, the less you know
You talk, you talk
Commot for my face make I see road pass

No mean say we get the same society
Oh oh
No mean say we get the same philosophy
Oh oh

E no mean say we get the same mentality
E no mean anything
Commot for my road
I get many things
I get where to go
My people make we stand
Stand for what we want
