

Until We Try (This Lo')

Aşa

Baby you never know
Until we try
Until we try this love
I have been around the world
But you're the only one my heart
The only one my heart beats for
Don't let time fool you
It's now or never
Now or never
You may never know
Until we try this love

You see in this world
In this world
Not everything happens for a reason
Been foolish once
Foolish once
Letting you walk away from me
Almost missed my chance
Missed my chance
Trying to see what's on the other side
But now that I found you love
I will never ever let you go
Baby you never know
Until we try
Until we try this love
I have been around the world
But you're the only one my heart
The only one my heart beats for
Don't let time fool you
It's now or never
Now or never
We may never know
Until we try this love

I know you can find
You can find a pretty girl
At the snap of your finger
And pretend
And pretend that you were in Paradise
We've made
Made mistakes
We can't continue down this line
Life brought us back together
Baby let's make it last forever

Baby you never know
Until we try
Until we try this love
I have been around the world
But you're the only one my heart
The only one my heart beats for

Baby you never know
Until we try
Until we try this love
I have been around the world

But you're the only one my heart
The only one my heart beats for
Don't let time fool you
It's now or never
Now or never

Baby you never know
Until we try
Until we try this love

Baby you never know
Until we try
Until we try this love
I have been around the world
But you're the only one my heart
The only one my heart beats for
Don't let time fool you
It's now or never
Now or never
We may never know
Until we try this love

Baby you never know
Until we try
Until we try this love
