

Good Girls Are Falling Apart

Asaf Avidan

Open your eyes and look briefly into it
The vanishing point that goes back to the start
Tell me now honestly, do you still love her?
Or are you obsessed with not breaking her heart?

I love her, I love her
I love her, I love her
That's what you scream going into the night

Drop her, just drop her
Drop her, just drop her
That's what you do if you do what is right

Can you leave good girls from falling apart?
Can you leave good girls from falling apart?
Can you leave good things from falling apart?
Good things are falling apart

A sparkle of tears absorbed in her eyelash
That's what you use for the string that you weave
That thin, golden string tied to her ankle
The other end tied to the air that you breathe

I want her, I want her
I want her, I want her
That's what you howl at the moon in its wane

Let go of her, let go
Let go of her, let go
Let go of her soul, she let go of her pain

Can you leave good girls from falling apart?
Can you leave good girls are falling apart?
Can you leave good girls are falling apart?
Can you leave good things are falling apart?
Good things are falling apart

Boo

Falling apart
Falling apart
Oh now

Open your eyes and look bravely into it
The vanishing point that goes back to the start
Tell me now honestly, do you still love her?
Or are you obsessed with not breaking her heart?
