

This Cool

Asaf Avidan

I don't know what you want from me
Still don't you go, don't go out on me

All you gotta do honey is go out the door
Just leave some money for my time
All you gotta do is listen to this tune
And bleed yourself to sleep

I never wanted it to be this way
But you and me baby - got our own set of rules we play
I never wanted it to be this mean
But you and me babe - got our own conscience to clean

I never wanted it to be this cool
