

Wildfire

Asaf Avidan

Riding shotgun through the night
Got your "Blood-on-the-Pavement" lipstick
And everything is alright

Kill the headlights, cruise control
The spine inside your body is a serpent
And it's telling you to Rocknroll

Then everything slowed
And you saw beyond the veil
Everything burns
And everyone's born to fail

Your wildfire raging through the town
Wildfire, another man, another man down
Your wildfire raging through the town
Wildfire, another man down, down, down

Let your hair down, let it blow
The blood inside your vessels is a wolf-pack
And it's howling at you - Go, Go, Go

Put your hands up, rooftop down
There's a burning in your finger and you want to let it linger
So you're coming to town

Then everything slowed
You could see clearer than light
All that you are
Is only a flame in the night

Your wildfire raging through the town
Wildfire, another man, another man down
Your wildfire raging through the town
Wildfire, another man down, down, down EARTH ODYSSEY

Wake up from your sleep, take a deep
Breath and let it all out
Tear away your dreams by the seams
And throw them about
Fall back to your corner, it's over
The game was rigged from the start
Hold your body, embrace it, and taste it
As it's falling apart

Something out of nothing
Still amounts to nothing - at all
Nothing of us is ever going to last
Oh no, you're not that strong
Something out of nothing
Still amounts to nothing - at all
Everything happening is slowly turning to dust
Let's run and run and run and run

Emancipated and sedated
Can't you tell?
Dilapidated, consecrated

To the art of singing -

Nah nah nah nah nah nah nah nah
The world is spinning under
Nah nah nah nah nah nah nah nah
And everybody's singing to their graves
Nah nah nah nah nah nah nah nah
And the world keeps spinning on
Nah nah nah nah nah nah nah nah
We're all racing to a point of no return
Nah nah nah nah nah nah nah nah
Keep singing like there's no tomorrow
Nah nah nah nah nah nah nah nah
