

tolerance

Asal

When the weed ain't working anymore
And the drinks ain't gettin' me the same
Man, I must be metal to the core
Or it must be something with my brain

Who do you call?
Who do you call?
When the plug
Ain't pluggin' nothin' up no more
Where do you fall?
Where do you fall?
When there ain't one thing to get you high no more

I've built the tolerance
Of a hippopotamus
WTF I got to risk?
Baby, I don't drink I drown

I've built the tolerance
Of a hippopotamus
WTF I got to risk?
Baby, I don't drink
I drown

When the weed ain't working anymore
And drinks ain't gettin' me the same
Man, I must be metal to the core
Or it must be something with my brain

Did one or two
I blinked
I did it all
I had a few
Tryin' to
Forget it all

I swear the wind keep kickin' at my door
I think his goal is takin' me away

I've built the tolerance
Of a hippopotamus
WTF I got to risk?
Baby, I don't drink
I drown

I've built the tolerance
Of a hippopotamus
WTF I got to risk?
Baby, I don't drink
I drown

When the weed ain't working anymore
And drinks ain't gettin' me the same
Man, I must be metal to the core
Or it must be something with my brain
