

Let It Bang

ASAP Ferg

Grandma hid that hammer in her mattress from my uncle
He would listen to Wu-Tang fore walking in the jungle
Army... jacket, kitchen knife, hope he don't cut you
With a deuce-deuce up in his boot in case he getting tussles

And he will
Let it bang
And he will
Let it bang
Let it bang
Let it bang
Let it bang
And he will
Let it bang
Let it bang
Let it bang

Life will work out
How he turned out
Granddaddy tried to help him but he burnt out
He screamed lazy
Fuck I want you
Tried to get a job
Block party where the hoochies turned out
They would dance and sweat they perm out
And they scream we got beef keef with the handle with no prob
Cologne and liquor was his odor
Fragrance, of a riding soldier
ODB was his persona, he was high on Mars
40 ounce in this some marijuana
When grandma die from pneumonia
Now his life a roller coaster, put that shit on God

And he will
Let it bang
And he will
Let it bang
Let it bang
Let it bang
Let it bang
And he will
Let it bang
Let it bang
Let it bang
