

# Tatted Angel

ASAP Ferg

Yeah, shit I'm going through a lot  
Art Basel night out but I'm caught up in the spot  
Left the Pigalle party, I'm in the crib tryna plot  
I can't even sleep, I'm tryna get the guap  
I'm thinking all I need is a big tour with RiRi  
And a couple more radio hits to get TV  
Just hit Virgil to try to get Yeezy  
He working on the album so it ain't gon be easy  
Damn, and my girl just caught a nigga  
Rolled up unannounced she ain't even call a nigga  
Seen shawty through my door and got in all her feelings  
Going crazy, hope she don't get your boy evicted  
Shit I ain't even call them niggas  
It's been a long time since I even talk to niggas  
Couple childhood friends turned to awkward niggas  
Cause when you get Benjamins there come in all the villains  
More money, more problems this shit is real life  
The game is WCW real trife  
Dumb, broke up with a good girl who had my back  
Now it's gonna be hard to find a real wife  
Time to deal with the snakes and all the fake loving  
Why everytime when she fuck me she always want something?  
Always asking bout who's who? And who's that?  
And oh, I do's this, do you rap?  
Opportunists are opportunists becoming fluent  
Cleopatra in every factor, she never losing  
She will juice them until his empire come to ruins  
Sometimes I think, what the fuck am I doing?  
I'm strong but I'm only human  
And my tolerance is low so I'm never using  
Sometimes I wish Yams was never using  
When we toured in UK I knew I'd lose him  
Yeah, I know I'd lose him  
He went to rehab a year before and he seen improvement  
But the fame and access is what abused him  
But he in heaven now and I know God'll use him  
Yeah, I know God'll use him

Tatted angel, I'm cuffed to hell with diamond bangles  
And this world is a whack bitch she never faithful  
She would fuck any rich nigga for diamond Jesus  
If you wanna get in the game watch how she play you  
Tatted angel, I'm cuffed to hell with diamond bangles  
And this world is a whack bitch she never faithful  
She would fuck any rich nigga for diamond Jesus  
If you wanna get in the game watch how she play you  
Play you, play you, play you

Shit feeling too hard to get far  
Feeling like a butterfly, shit, stuck in a glass jar  
Wanna be the man, you gotta risk it all
