

Torch

ASAP Ferg

Light it up, light it up, light it up, light it up

We flared up, flared up, flared up, flared up
Light it up, light it up, light it up, light it up
We flared up, flared up, flared up, flared up
Light it up, light it up, light it up

Hol up, y'all gotta pardon my taste bitch
Hol up, y'all can't talk about basic
We mighty morph power ranger
Hol up, my niggas all so dangerous
Hol up, y'all niggas talk outrageous
Hol up, don't get caught in the matrix
Hol up, got that torch my savior
Give me that torch for my haters

Punk ass lyrics can't hear it no more
Stand up to the man can't fear him no more
Flex on tha gram don't feel it no more
You was driven for a minute but can't steer it no more
Riding tha wave and now you chilling on shore
What's the use of being rich when your insides poor
Diamonds it gloss but you don't want to see more
I know you wanna see more
But you on a seesaw

Life done slowed you down
Your body is acting up
Your mind is out of bounce
It's telling you pack it up
You shackled by thoughts and memories that's adding up
Like threesomes overseas, bitches with fatter butts
Make you feel like alive like you can't have enough
You probably feel paralyzed if you ain't have a bucks
You still feel paralyzed the bucks attract lust
Friends is having kids the shit ain't adding up
What's the use of having a world with no love
What's the use of having a light with no plug
What's the use of ingredients with no sauce
What's the use of the physical with no source

We flared up, flared up, flared up, flared up
Light it up, light it up, light it up, light it up
We flared up, flared up, flared up, flared up
Light it up, light it up, light it up, light it up
We flared up, flared up, flared up, flared up
Light it up, light it up, light it up, light it up

Hol up, y'all gotta pardon my taste bitch
Hol up, y'all can't talk about basic
We mighty morph power ranger
Hol up, my niggas all so dangerous
Hol up, y'all niggas talk outrageous
Hol up, don't get caught in the matrix
Hol up, got that torch my savior
Give me that torch for my haters
