

## Catch Up

ASAP Twelvyy

Lookin' for my building, seen a plane land  
Where I'm from an episode of Gangland  
Seen 'em make a mountain off of eight grams  
Fiends so high, had 'em breakdance  
Pop, lock, drop off the waistband

Never ran it out with the canines  
Word to Tsu Surf, let that K shine  
We'll pop out like, "Hey guys"  
Jumpin' over fences for this TikTok  
Whole life savings in a ziplock  
Word to Yo Gotti, had to bounce back  
Felt like Vin Baker, I was down bad  
Crisis, life flashed, figured out fast  
Sporty like Fab, this a throwback  
Twelvyy big body, sittin' [?]  
Want a Maserati and a moped  
We was road runnin' through the campuses  
Started as a marvel, league of champions  
New, young, live from Shadow Moses  
Last year grossin' what I'm grossin'  
Picture what I'm holdin'  
Product too potent  
Leprechaun clovers while I'm coastin'  
In the big body, too explosive  
Long live 'caine in my Ghost  
Live on stage for a roast  
Work so hard, need a toast

Fifty out the hallways, all kinda sets up  
I'm a walking headcrack, bookie put your bets up  
Poppin' champagne in the Rams, need a chop cheese  
Lookin' like we shootin' videos, it's a live feed  
Ain't sleep 'bout 10 days, shut the rest up  
'Bout to do pushups in the park, get my chest up  
First of the month, buyin' work, put a check up  
Good day, bad day, I still gotta catch up

Red light, green light, I'm hopin' that it match up  
Red rooster batch up, Amiri how it patch up  
We could fit six in the whip if they lap up  
I could put six on my wrist if I stack up  
Might not happen again, I couldn't pass up  
I fell in love with' your friend, I had to gas up  
Twelvyy be the one and the only, I tell 'em catch up  
Skatin' on ice like a goalie, I'm goin' faster
