Yo, yo, yo, yo

Time to formulate a plan then take it 'round the world
We can split it 50/50, this my get 'em girls
Keep computers 'putin', youngin with me used to shootin'
Got a sugar momma, trippy like she Whitney Houston
Used to triple ghostin' Marvin makin' murder music
I'ma execute it, swear that we the best to do it
Said my ice cold shinin' when the lights low
Heard that price low, ballin' call the iso

Lasers hittin' off the bridge like a light show
Corey Fisher, I can do this with my eyes closed
Carousel in a Porsche goin' psycho
Left the northern and now we head to Cairo
Time to feed the people, woadie you can keep the evil
In the streets evisu, you know my sweater needles
Sneaker box full of ones, this my lunch money
Start laughin' like the Joker when I touch money

Time to formulate a plan then take it 'round the world
We can split it 50/50, this my get 'em girls
Keep computers 'putin', youngin with me used to shootin'

In the continental nigga call me John wick
Got a couple issues hit you send a missile
They gonna get you
And I got a youngin out here buggin' tryna ride today
Nigga got touched yesterday tryna slide today
Catch him creepin' all these niggas with me
See a buncha demons never hide
Purgin' all them niggas, yeah, I'm fucking seekin'
And I got killers with me slidin' from the projects
And they dependin' on me to get them out of it
Free emillz it's coke money and
I'm proud of him could take him from the O can't take the O out of him
I'm on post now
Ain't no one but grown folks now
My new bitch a blunt of loud my old bitch dirt now
I'm tryna stuff my safe (Yeah)
And anyway a nigga put it ain't nobody safe
And either way I'ma pull it let a bullet hit a upper face
Then watch him post I guess it's not his day
