

Florida Sleep On

ASG

It's not real I know
It's a nightmare let go
She'll peel your skin off slow
Scorch your eyes as a prize
Glenn and Tonya know

Wolves are feeding around this town again
Wolves are feeding around this town again

It's a beast I know
Twisty ties in a bind
Acid orange groves
The sunshine state exposed
Doom and gloom pop threshold

Wolves are feeding around this town again
Wolves are feeding around this town again

The crash house slips though our finger tips
Wind swept palms blow
Our winter kiss with a citrus twist
Turn down ultra violent shows

Wolves are feeding around this town again
Wolves are feeding around this town again
Wolves are feeding around this town again
Wolves are feeding around
