

## Painted Hatred

ASG

Can i feel the sun again  
Will my eyes over beam that color red  
Would i want to start i've lost  
is know back again  
And the black clouds  
Circle round my head

And i failed you in the way x2

Can i fill it up again  
Self indulged to im kicking through the bends  
Well until i've lost  
A new scar was born  
And your face seem to dance under the flame

And i failed you in the way x2

Do you know what you've done  
Know who you saved  
Don't you care that we see  
That bullshit you crave  
I'll paint you hatred
