Vitals

ASG

Gimme prizes clear history
Hear the outcry from the outside
Daylight's breaking my disguise
Easy come easy go

Hope to remain
Hope to unwind
Hope to the morning sky

No one's safe here after all
Seen a bad sign point to fun for all

Pour them regrets in the fire
Spill your horror stories
Pour them regrets in the fire
You know there's more in store

Pretty crisis, big victories
Like the upside from the downside
Break out dreams from my designs
Here it comes, there it goes

Pulse to the vein
Black to the eye
Hope to the morning sky

We're all crazy after all
See a big bright light then the axe to fall

Pour them regrets in the fire
Spill your horror stories
Pour them regrets in the fire
You know there's more in store
