

Weekend Money

ASG

Better save up, the price only rises it seems
Life breaks the change, death pays for it
Cost is in exchange
Hearts beating quicker
You pick the grave, ill dig for it
Payback is everything

Drive me in parts and build again
You turn for me back into a smile
It ain't real just like the dreams you want to steal
We kick in sleep and we kill for time

Never gave up, trying for something to keep
You take the pain, ill give for it
Scrape up what remains
Hearts beating ever quicker
Let's race the day, into another
Hope it stays the same

Drive me in parts and build again
You turn for me back into a smile
It ain't real just like the dreams you want to steal
We kick in sleep and we kill for time

Drive me in parts and build again
You turn for me back into a smile
It ain't real just like the dreams you want to steal
We kick in sleep and we kill for time
