

Underneath It

Ásgeir

Calm is in the air
Leaves are floating by
A trickle here and there
Home to unify

Little headwind
Try to bring me back
Underneath it
Underneath it
Underneath it
Underneath it

The order of the day
Is mend the falling out
Let guilt fade away
Refinement bring about

Then we can begin
Then my heart can beat
Underneath it
Underneath it
Underneath it
Underneath it

All that tumbles down
Things that have gone south
Gone from green to brown
In the word of mouth

A reason why we're here
Reason can't be far
Underneath it
Underneath it
Underneath it
Underneath it

Hear the whispers of the restless brook
And while the shadows fall
We can find an answer
Getting closer by the hour
Closer than we have before
