Until Daybreak

Ásgeir

Well you know my love that I can't let go
Can't you see how much I care
You take my restless heart to a safer shore
When I don't think that I know what I am

Can we lie beneath an ocean of stars?
In the moss until daybreak
Neon lights dancing there all for us
Floating like waves through the night

Still beneath the weather I wanted
Am I hunted by the werewolves around?
Am I only here the rest of the evening?
Am I only here to let go and die?

You were my fire and my only spark
And my sunlight in the dark
But now I fall as I fall to the ground again
I will lay my heart to rest

Still beneath the weather I wanted
Am I hunted by the werewolves around?
Am I only here the rest of the evening?
Am I only here to let go and die?

Tell me how you feel
Tell me how you feel
Tell me how you feel

Still beneath the weather I wanted
Am I hunted by the werewolves around?
Am I only here the rest of the evening?
Am I only here to let go and die?

Still beneath the weather I wanted
Am I hunted by the werewolves around?
Am I only here the rest of the evening?
