

Escape, escape, you don't know what to do
Delete, I can't delete all I felt for you
Rewind, rewind all that you said to me
We can't go on like this

Playing back this love in my head
What was white as snow now bleeds red
I still smell your scent on my bed
It doesn't feel like its dead

Erase, erase those things you said to me
Repeat, repeat the words I've been set free
Control, control yourself I think I've lost control
Return to me my love

Playing back this love in my head
What was white as snow now bleeds red
I still smell your scent on my bed
It doesn't feel like its dead

Slowly sinking under a weight I cannot take
Denial of the truth, emotions can't be faked
I never wanted out, never wanted to feel this way
Just waiting for the anger

Playing back this love in my head
What was white as snow now bleeds red
I still smell your scent on my bed
It doesn't feel like its dead
