

Do You Feel It?

Ash

Now the story's only just begun
Do you feel it, yeah?
Subtle magic on this night so young
Do you feel it, yeah?

You've been waiting for the walls to come down
Waiting for your luck to turn round
Waiting for your life to change
Do you feel it, yeah?

When the night falls on this wonderland
Do you feel it, yeah?
Let me show you, take you by the hand
Do you feel it, yeah?

Banish all your fear of the unknown
Make a new start, you're not alone
Reopen your heart to me
Do you feel it, yeah?
You've been waiting for the walls to come down
Waiting for your luck to turn round
Waiting for your life to change
Do you feel it, yeah?

I wonder if I'm dreaming
I can't describe this feeling
This feeling is believing
We'd lose it all if you just walk away
Baby don't walk away
This world will not divide us
We'll never look behind us
The answers are inside us
I need you baby, don't walk away
Baby don't walk away

Come on, come on baby
Now the story's only just begun
Do you feel it, yeah?
Subtle magic on this night so young
Do you feel it, yeah?
Come on, come on
Do you feel it, yeah?
Come on, come on
