

Don't Need Your Love

Ash

You gave me no chance
Without a backward glance
You were gone
Vanished in thin air
Going back to where
You came from
Holding onto hope
A vain attempt to cope
I know

Only does damage to myself
Does damage to myself

I don't need your loving
Need your love
I don't need your loving
Need your love
I don't need your...

Couldn't see the signs
Or read between the lines
That is why
Now I'm so confused
The words I thought were true
Were just lies
You've dealt such a blow
That if I can't let go
I'll know

I'll just bring heartache on myself
Bring heartache on myself

I don't need your loving
Need your love
I don't need your loving
Need your love
I don't need your love

I don't need that loving
Need that love
I don't need your loving
Need your love
I don't need your love

I don't need your loving
Need your love
I don't need your love
I don't need your loving
Need your love
I don't need your love

I don't need that loving
Need that love
I don't need that love
I don't need your loving
Need that love
Don't need that love

I don't need your love
