

Double Dare

Ash

Something happened the day that I was born
The midwife said there's gonna be a storm
This one here will stand above the rest
This one will be the very best

Right from the beginning I cut myself free
Cos I realised there's no-one else like me
So step on up if you don't think it's true
Come on
I double dare you

A phenomenon right before your eyes
These exploits will be immortalised
Lightning strike! I'll come out of nowhere
While you throw bombs, swinging at thin air

Right from the beginning I cut myself free
Cos I realised there's no-one else like me
So step on up if you don't think it's true
Come on
I double dare you

Right from the beginning I cut myself free
Cos I realised there's no-one else like me
So step on up if you don't think it's true
Come on
I double dare you

Right from the beginning I cut myself free
Cos I realised there's no-one else like me
So step on up if you don't think it's true
Come on
I double dare you
