Easy Girl

Ash

Let the tide lead me
Wherever it will pull
Get carried away
When the moon is full
I never take heed of
The warning signs
I just close my eyes
When you get out of line

Easy Girl, I want it
Easy Girl
I wanna live alone with an
Easy Girl

This poisoned leather
Delivered with love
This angel who fell
From heaven above
Your danger is beauty
More deadly than most
But maybe I'll burn
If I get too close

Trouble Girl, I want no
Trouble Girl
I wanna live alone with no
Trouble Girl
