

# Night Terrors

Ash

This ship is taking off  
You're going faster, into disaster  
Into the dark and far beyond  
You're going to hades, in a Mercedes  
Drop your bags leave them behind  
There's no returning, where you are going  
Forsake your soul, forget your mind  
a one way ticket, return? you've missed it

All you thought you used to know  
All the safety of your home  
Any joy you used to own  
Shred to pieces in limbo  
Now, freak out and die  
Your life's a lie

Screaming as the night  
Terrors consume your  
Fear is their delight  
They're here to haunt you  
You took the darkness on  
And now your mind is gone  
Forever lost you'll run  
This night has just begun

Where were you? She needed you  
The sky was falling! You were appalling!  
Some friend, some confidant  
You couldn't care less, she was in distress

Now you're in a fucking stew  
I'll watch your torment from this view  
Your desperate cries will not be heard  
Your grip unfolds, no-one cares  
Now, freak out and die  
Your life's a lie

Screaming as the night  
Terrors consume your  
Fear is their delight  
They're here to haunt you  
You took the darkness on  
And now your mind is gone  
Forever lost you'll run  
This night has just begun

Screaming as the night  
Terrors consume your  
Fear is their delight  
They're here to haunt you  
Screaming as the night  
Terrors consume your  
Fear is their delight  
They're here to haunt you
