Orpheus

Ash

That summer I did nothing
Just sleeping, thinking and hanging around
Left the dark streets of September
As the air was cooling down
Woah yeah it was cooling down

```
            F#mi            B
I need the sunshine in the morning
    A                       E
I'm heading for the open road
C#mi            B
Sunshine in the morning
A                       B
Lord you gotta let it flow
```

```
E7
```
Ever since I lost her
Seems the more I learn, the less I know
Everyday I think about her
But if I look back I'll turn to stone
To stone, woah yeah gonna turn to stone

```
            F#mi            B
I need the sunshine in the morning
    A                       E
I'm heading for the open road
C#mi            B
Sunshine in the morning
A                       B
Lord you gotta let it flow
```

```
            F#mi            B
I need the sunshine in the morning
    A                   E
Yeah I gotta feel its glow
C#mi            B
Sunshine in the morning
A                       B
Lord you gotta let it flow
```

```
E
```
Im heading for the open road x8

```
E7
```
It hit me without warning
I was left out on my own
The sad times they were forming
I went through them alone

A new day it is dawning
I feel the pain is gone
The open world is calling
And I am moving on

```
            F#mi            B
I need the sunshine in the morning
    A                       E
```

I'm heading for the open road
C#mi B
Sunshine in the morning
A B
Lord you gotta let it flow

F#mi B
I need the sunshine in the morning
A E
Yeah I gotta feel its glow
C#mi B
Sunshine in the morning
A B
Lord you gotta let it flow
