

## Oslo

Ash

Shall we live in Oslo?  
Shall we live in Paris?  
I'm going through a sea change  
I'm burning up without you

Shall we become lovers?  
Shall we become lovers?

Follow me to Oslo  
Follow me to Paris  
I'm going through a sea change  
I'm burning up without you

Shall we become lovers?  
Shall we become lovers?  
Shall we become lovers?  
Shall we become lovers?

Before the town awakes  
Erase my memory  
Of somewhere I never loved  
And only dreamed to leave  
Vanish with the melting snow  
No trace of where we're bound  
Some place we never will be found

Shall we become lovers?  
Shall we become lovers?  
It's a pale, cold, brand new day  
The perfect day to run away  
Shall we become lovers?  
It's a pale, cold, brand new day  
The perfect day to run away  
Shall we become lovers?  
Shall we become lovers?
